

Luxor Booster Club 2020

As each of the families of the nobility copes with the Covid-19 pandemic during 2020, all of the nobility also becomes acutely concerned on the effects this is making on the Luxor projects during this time of social distancing. The efforts to raise funds in 2020 has come to almost a standstill. On the other hand, we need to be creative as we move forward.

The nobility understands the commitment Luxor Shriners make towards the Bathurst Clinic and the Transportation Fund for Children. The need to financially support the great work done in the past. The need during the pandemic has not lessened. In response, the Luxor Shriners of New Brunswick are appealing to all the nobility to reach out and support the great work helping children and indirectly their families in this time of need.

At present, we are far behind in the amount raised (\$2,200) in 2019 with 169 donors. Donations can be made many ways you can go on our website Luxor Shriners of New Brunswick, you can send a cheque into the office, we can take a credit card over the phone or accept an e-transfer to the office email.

As your Committee Chairman for the Booster Club, I appeal to all nobility to reach out as we support the great work at the Bathurst Clinic and those who work hard on all projects of Luxor Shriners.

In advance, I thank all the nobility who come forward in supporting your fellow nobility.

YITF

Reverend Noble Erik W. Kraglund
